(647) 237-3503

Technical Writer

Technical writer with a BEng in Mechanical Engineering and a Graduate Certificate in Technical Writing. Experienced in creating user documentation, SOPs, and structured content using modern tools. Skilled at translating complex systems into clear, user-focused documentation.

Skills

Documentation	Tools	Technical
✍ User manuals, SOPs, reports, project plans	✍ Markdown, XML, DITA	✍ Engineering design
✍ Editing and development	✍ CMS / Wikis / SCORM	✍ Usability and UX design
	✍ Office, Flare, InDesign	✍ Technical research

Selected Experience

2025 – 2026	Graduate Certificate, Technical Writing. Algonquin College • Achieved Dean's Honour List. • Created wikis, microsites, and e-learning (SCORM) modules. • Demonstrated understanding of information planning strategies, structured content, and DITA / XML tools. • Developed user personas, designed and directed usability tests. • Conducted technical research and subject matter expert interviews. • Wrote letters of transmittal, style sheets, reports, and white papers. • Edited writing at all levels: comprehensive, copyediting, proofreading. • Wrote and published a technical user manual, <i>How to Build a Gaming PC</i>, following documentation project management practices.
2019 – 2020	Field Service Supervisor. Bike Share Toronto (Shift Transit) • Wrote technical training documentation and SOPs. • Interviewed, hired, and trained new technicians. • Implemented a CMMS for reporting and tracking work orders. • Automated KPI reporting processes. Presented reports to the client. • Managed assembly and deployment of 160 new stations for the 2020 system expansion project. • Received and inventoried \$9M of equipment purchased by the City of Toronto in 2020 for system expansion.
2012 – 2017	BEng, Mechanical Engineering. Ontario Tech University (UOIT) • Wrote business proposals, feasibility studies, and design project plans. • Created engineering drawings and diagrams using CAD/CAM software. • Used dynamic fluid simulation and FEA tools to analyze designs. • Developed engineering project plans using concurrent design strategies. • Led the capstone design project team for final year, writing progress reports and meeting with faculty supervisor.

Additional Experience

- 2021 – 2026** **Wholesale Delivery Driver.** 100km Foods Inc.
- Completed farm pickups and deliveries, tracked inventory variances.
 - Supported route planning, invoicing, and purchase order processing.
- 2020 – 2021** **Delivery Driver and Route Planner.** Mama Earth Organics
- Delivered produce boxes to residences during the COVID-19 pandemic.
 - Planned and optimized routes using spreadsheets and map tools.
- 2017 – 2019** **Field Service Technician.** Bike Share Toronto (Shift Transit)
- Maintained bike docking points and stations to a high standard of repair.
 - Resolved hardware and software failures at bike stations.
 - Took additional responsibilities as team lead for 2018 and 2019 bike share system expansion projects.
 - Operated 8-ton crane for station relocation and refurbishment.
- 2013 – 2017** **Videographer, Editor.** Freelance Video Production
- Partnered with videographers to film weddings and other projects.
 - Engaged with clients to define project scope, and deliverables.
 - Managed project resources and scheduled shoot itineraries.
 - Communicated with clients and provided revisions based on feedback.
 - Delivered final edits within contract deadlines.
- 2016** **Summer Bike Rebalancer.** Bike Share Toronto (Motivate LLC.)
- Maintained an even distribution of bikes in key service areas.
 - Assisted customers with docking issues, explained the pricing and benefits of the Toronto Bike Share system.

Other Projects

- February 2015** **Ontario Engineering Competition. Innovative design category.**
- Participated in a provincial-level engineering team competition.
 - Designed a conceptual wind-turbine. Analyzed economic feasibility. Manufactured and evaluated a design prototype.
 - Presented the concept and analysis to a panel of judges.
- 2013 – 2014** **Untold Church.** Documentary short created for Partners International
- Worked on production that traveled to remote areas of India and Nepal.
 - Roles included cinematography, story directing, and editing.
 - Organized travel and shooting itineraries. Scripted narration.
 - Managed video footage collection, organization, and backup.
 - Produced promotional images and posters for social media.

Certifications

- Forklift Operator Safety Awareness Danatec, Feb 2020
- WHMIS Training Danatec, Feb 2020
- Knuckle Boom Operator 0-8 Ton Certification Atlas Polar, October 2018
